Friendly Software Named AccountMate President's Award Winner

PETALUMA, CA (December 28, 2010)—

At AccountMate Software Corporation's annual SYNERGY conference, Les Kule of Friendly Software, Inc. was awarded a prestigious President's Award. This was presented at an evening gala event attended by AccountMate's Solution Providers and Vertical Solution partners.

David Dierke, President and CEO of AccountMate, presented this President's Award to Les Kule saying that "Les and his team at Friendly Software epitomize an ideal channel partner both in the manner in which they service their own clients and then to also help the entire AccountMate community to understand ways to further satisfy the needs of all companies using our business accounting products".

Friendly Software is a long-time AccountMate Elite Business Partner. Since 1987 Friendly Software, Inc. of Wantagh, New York, has been providing individualized answers to clients by delivering customized accounting solutions, database systems and full-fledged business management platforms designed to fit each business. Solutions developed and implemented help make their clients more efficient, productive and profitable. Friendly Software, Inc. services a broad base of industries on a local, national and international basis. Les talks about his company saying, "We have developed into an award winning computer consulting company by adhering to one principle: listen and learn the unique needs of our clients' business, fully understand their needs, then provide them with the tools to be more competitive in today's market

and beyond. With the flexibility of the customizable AccountMate software, our ability to satisfy our clients is even more powerful."

During the award presentation, Dierke said that he especially appreciated Les "both at a personal and professional level. Les Kule deserves the AccountMate accolades for his dedication to being a great feedback resource for us, as well as a valued member of our AccountMate Business Partner Advisory Board, who uses his knowledge and perspective to help us to expand our own software business."
